

CompuNet Clinical Laboratories provides quality diagnostic laboratory services to improve health outcomes within the communities it serves. Founded in 1986, CompuNet is a full-service clinical laboratory, serving physicians, hospitals, and health care industry organizations throughout the region as a trusted partner and expert resource. A subsidiary of Premier Health, CompuNet offers health care providers comprehensive laboratory resources, including complex and specialized testing capabilities.

CompuNet performs an average of 7 million lab tests per year and offers a test menu of approximately 2,000 tests.

CompuNet consists of a vast network of 30 patient service centers throughout Southwest Ohio, from Dayton to Cincinnati.

CompuNet manages all Premier Health hospital labs and provides lab services throughout the Premier Health system.

Medical directorship and pathology services are provided by Valley Pathologists.

CompuNet provides rapid response laboratories within many oncology/hematology practices to provide rapid results for patients with cancer.

CompuNet offers full-service lab testing capabilities. Some of our lab's services include surgical anatomical pathology; infectious disease testing and immunology; toxicology (drug monitoring and drug abuse); immunohematology; hematopathology; and next gen sequencing.
